STANLEY BOUTIQUE

OUR STORY

Every piece of Stanley furniture is a journey in perfection of different artisanal styles, harmonized ergonomically to provide comfort and beauty.

Our mission is expressed in our tag as **"The Makers of Beautiful"** which we dedicate to our team of artisans and craftsmen.

Our journey of over 27 years has seen us grow from a manufacturing facility for luxury car seats to providing full home solutions through retail and customization.

We are India's largest luxury Manu-retailer for furniture and the first in the country to pioneer global collaborations in design for furniture.

Every brand from the House of Stanley aspires to provide bold, eclectic, unique and creative expressions inspired from India and the world.

PRODUCT CHARACTERISTICS

RELAX FIT

RELAX FIT

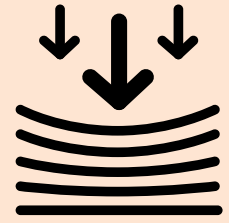

The product with 'Relax Fit' is crafted with superior fillings such as goose feather and memory foam, designed to provide exceptional, long-lasting comfort. The combination of these high-quality materials ensures a plush, supportive seating experience that conforms to your body's contours over time, offering unparalleled relaxation. However, as a result of this luxurious filling, the sofa may develop some looseness and wrinkles. This is a natural occurrence due to the softness and flexibility of the materials, which adjust to the pressure points from regular use.

Additionally, the natural characteristics of leather contribute to this process. Leather is a dynamic, organic material that responds to usage by expanding and softening over time. As the sofa is used, especially in areas where pressure is applied frequently—such as the seat cushions and backrests—the leather begins to stretch and mould to the shape of the user. This gradual expansion enhances comfort, allowing the leather to feel more supple and accommodating. However, this process also leads to the formation of wrinkles and creases, which are not flaws, but rather a normal and natural part of the leather's aging process.

Together, the luxurious filling and the natural behavior of the leather create a product that offers both comfort and a unique, evolving character. The wrinkles that form over time are a testament to the leather's quality and its ability to adapt to your body's shape, making the sofa even more comfortable and personal with each use.

COMFORT FIT

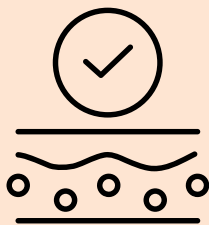

COMFORT FIT

The product with 'Comfort Fit' is crafted using a combination of soft fibre, feather, and foam filling, carefully chosen to provide exceptional comfort and support. The soft fibres and feathers offer a plush, cozy feel, while the foam ensures the seating maintains its shape and firmness over time. As a result, you may notice some natural looseness and the development of wrinkles as the product ages.

These are normal signs of wear and tear, particularly due to the inherent qualities of leather. Leather naturally expands and softens with regular use, which allows it to conform more closely to the contours of the body, enhancing comfort.

As the leather stretches and adapts to pressure points, it may develop creases and wrinkles. These are not flaws but a natural part of the leather's aging process, adding character and a personalized touch to the product. Over time, this results in a more comfortable and unique seating experience, as the leather continues to improve with use.

FIRM FIT

FIRM FIT

The product with 'Firm Fit' is expertly constructed with high-density, high-resilience foam to provide optimal firmness and support. The foam helps the seating and backrest maintain their shape over time, preventing the sofa from sinking or becoming too soft with regular use. It offers a firm yet comfortable sitting experience, ensuring durability and long-lasting comfort.

The sofa is upholstered in leather, a material that naturally responds to pressure and usage. As the leather is used, particularly in high-contact areas like the seat cushions and backrests, it gradually expands and softens to conform to the shape of the user. This enhances comfort, making the sofa feel more personalized and relaxed.

Over time, as the leather adapts, it develops wrinkles and creases. This is a natural and expected part of the leather's aging process and not a sign of damage. These wrinkles add character to the leather, contributing to its unique texture and appearance.

The more the leather is used, the richer and more comfortable it becomes, the combination of high-density foam and the leather's natural properties creates a durable, comfortable product that adapts over time, making it even more inviting and unique.

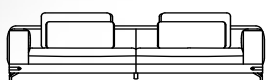

Abba

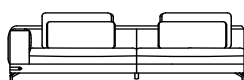

Daybed With Side Table + 3sa + 3sa With Back Table
Comfort Fit

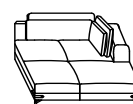

The Abba sofa is a true masterpiece, designed to bring a touch of elegance and sophistication to your living space. This sofa offers a variety of configurations, including a three-seater with a daybed, a three-seater with L-corner and terminal options. Each configuration is designed to offer maximum comfort and flexibility, making this product an ideal choice for any living room setting.
